SSLC – 10th STD
2017 – 2018
Rosemary matriculation higher secondary school
Percentage : 87%

PROFESSIONAL EXPERIENCE

Front-end Developer Intern | JUL 2025 – AUG 2025

KDR Tech Innovation, Bengaluru

- Developed responsive web pages and UI components using HTML, CSS, JavaScript, and React, ensuring seamless user experience across devices.
- Collaborated with the team to implement interactive features and integrate APIs, improving the functionality and performance of web applications.

Fullstack Developer | JAN 2025 – JUL 2025

Salam Technologies, Tirunelveli

- Built responsive web pages using HTML, CSS, JavaScript, and React to ensure seamless user experience.
- Developed and integrated a Java-based RESTful API backend to handle data interactions and support the frontend

---

PROJECTS

Personal Portfolio Website
Technologies: HTML5, CSS3, JavaScript, Bootstrap 5

https://portfolio-zameer.netlify.app

- Created a fully responsive website that adapts to various screen sizes and devices, ensuring a seamless user experience.
- Designed and developed a custom layout using HTML, CSS, and Bootstrap, showcasing skills and projects in a visually appealing way.
- Added interactive elements using JavaScript, enhancing user engagement and providing a dynamic experience.

Cric Mania – Cricket Score Chasing Game

Technologies: React.js, JavaScript (ES6+),HTML5, Bootstrap 5, CSS3

https://zamcricmania.netlify.app

- Developed an interactive cricket game with dynamic mechanics, allowing players to chase random target scores (170–220 runs) using two shot types: "Play Safe" (0 or 1 run) and "Loft Shot" (0, 1, 4, 6 runs, or out with 10% probability).
- Designed a responsive UI using Bootstrap grid and custom CSS with a dark sidebar and beige game area, featuring a dynamic run circle.
- Implemented a dashboard displaying real-time scores (runs, wickets, overs, target) with a game over state, using React hooks for state management and local storage to save and retrieve game progress.

Qeep Web Application

Technologies: React, Spring Boot, MySQL, Bootstrap

https://websitezam2.netlify.app/

- Developed a full-stack web application inspired by the Qeep platform using React for the frontend and Spring Boot for the backend.
- Implemented secure user authentication with login and registration functionality.
- Designed and recreated the classic Qeep UI, ensuring a familiar and user-friendly experience.
- Built the Friendzoo Pet Shop module with complete functionality, including pet listing, pet value calculation, and coin-based purchases.
- Implemented a coin system where users earn, spend, and manage virtual coins within the application.
- Developed an Admin Dashboard (Qeep Master) with full control to manage users, gift coins, and delete or control user accounts.
- Integrated MySQL for efficient data storage and management of users, pets, coins, and transactions.
- Designed a responsive UI using Bootstrap, ensuring smooth performance across devices and screen sizes
